

Benefits of LED Lighting:

- **Long Life hours: 50,000 hrs at 70% Lumen Maintenance**
- **Energy Efficient: 80-90 LPW**
- **Color Temperatures: 2700K- 8000K**
- **Color Rendering: 75 CRI @ 5000K**
- **Eco-Friendly- no mercury, lead, EMI, IR, UV, gases, etc.**
- **Solid State- High durability**
- **No heat in the beam**
- **Instant on/no warm up time**
- **Operates in -40 C - +135 C without intensity reductions**
- **Intelligent control for dimming, color mixing, etc.**
- **Low Profile offers unique solutions in lighting**
- **LED efficacy roadmap continues to 200 LPW**
- **LED Technology is the future in lighting**
